 - Node.js
 - Express.js
 - MongoDB
 - GraphQL
 - RESTful APIs
 - KOA
 - Keystonejs
 - AWS
 - Heroku
- Version Control:
 - Git
 - GitHub
- Testing:
 - Frontend Unit Testing (Jest, Mocha)
 - Functionality Testing
- Collaboration Tools:
 - JIRA
 - Slack
 - Google Suite
 - Asana
- Additional Skills:
 - Cross-Functional Collaboration
 - User Research/Feedback
 - Stakeholder Engagement
 - Agile/Scrum/Kanban Methodologies
 - Continuous Integration/Continuous Deployment (CI/CD)

About Me

Experienced Software Engineer and Frontend Developer that has executed a decade-long track record of delivering impactful solutions to complex challenges, combining technical expertise with a user-centric approach to drive measurable results and ensure seamless global implementation.

Experience

Software Engineer | SupplyPike

01/2017 - 02/2024, Fayetteville, AR

- Engineered intuitive interfaces that optimized internal processes, leading to a 30% decrease in project completion time and a 15% increase in user adoption rates.
- Executed Frontend tasks using React and TypeScript to deliver responsive, aesthetically pleasing user experiences, ensuring frontend to backend compatibility.
- Orchestrated seamless integration of UX/UI designs across cross-functional teams, driving stakeholder discussions and requirements planning, resulting in a 40% increase in user engagement and a 25% decrease in bounce rate.
- Formulated and implemented automated workflows, which cut down on repetitive tasks, saving the team 50 hours per month, and directly impacting customer satisfaction and product development timelines.
- Planned and implemented a reorganization of the customer support product, driving a 45% surge in ticket completion output and virtually eliminating the need for engineer intervention, resulting in significant operational streamlining and efficiency enhancements.
- Facilitated professional growth opportunities for junior engineers through targeted skill development initiatives, leading to a 15% increase in team productivity and a 20% rise in project completion rates.

UI/UX Designer | SupplyPike

01/2017 - 05/2018, Fayetteville, AR

- Directed the creation and realization of engaging user interfaces, boosting internal team efficiency and enhancing overall user experience.
- Collaborated with a development team of 5 to ensure the smooth integration of responsive designs, staying ahead of technology trends and user preferences.
- Standardized design elements across applications, maintaining a consistent and cohesive user experience.
- Translated user feedback and usability testing into actionable design improvements, contributing to product optimization.
- Engaged in high-level discussions with senior leadership and stakeholders, facilitating informed decision-making and issue resolution.

Web Developer | Gearhead Outfitters

04/2014 - 09/2016, Rogers, AR

- Revolutionized online presence by implementing user-centric design elements, catapulting average daily online sales by 1150% within three months.
- Conducted comprehensive website performance analyses, leveraging analytics to optimize content strategy and maximize user engagement.
- Facilitated seamless integration of third-party tools and services, enhancing website functionality and user experience.

Education

Treehouse Front End Tech Degree

09/2016
